Learn how to download eBooks and access them offline

Pearson Places brings all of Pearson's digital learning tools into one, easily accessible, online location. Before you start using it to plan and learn, you'll need to know how to download and access your eBooks.

In this guide, you'll learn how to download offline Reader+ titles through Pearson Places, so that you can access your eBooks even when you don't have an internet connection.

Downloading the Desktop app

1. Log in to Pearson Places.
2. Select 'click here'.

3. You'll be taken to the Reader+ download page. Choose the right operating system for your device to continue.

4. The Pearson Reader+ desktop app will download onto your device.

Download your eBooks to the Desktop app

Now that you have the Reader+ desktop app, you can download all your eBooks so you can access them offline.

5. Log in to the Reader+ desktop app with your Pearson Places email or username and password.

6. You should be able to see all of your eBooks available to download. A cloud icon shows that the eBook is available to download.

7. Select the ebook icon and it will start downloading. We suggest downloading the eBooks one at a time when you have a strong internet connection. Follow the green line around the cloud icon to see the progress of the download.

- When you see the 'unpack' icon, the eBook is in the final stage of downloading and will finish downloading shortly.

- When you see the green circle with the tick your eBook has downloaded and is ready to use. Select the eBook to open it.

FAQ

Do I need to download my Reader+ app?

Only if you wish to use it without the internet. You can always access Reader+ via Pearson Places if you have an internet connection.

Will I still see my bookmarks, notes and highlights if I use the offline desktop app?

Yes. If the internet is available when you open the desktop app, your books will be updated to include any new bookmarks, notes or highlights you may have made in the online version of the eBooks.
